NEW RELEASES FEBRUARY 2017

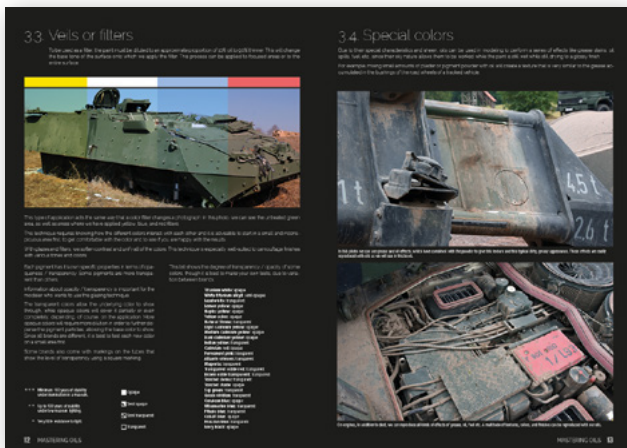

ABT602 MASTERING OILS 1 OIL PAINTING TECHNIQUES ON AFVS

23.95€

English / Spanish / German / French.
124 pages

Mastering Oils 1. Oil Painting Techniques on AFVs, is the first one of a master series dealing with all the techniques necessary to control oil painting. In this first one the master modeler Joaquín García Gázquez shows us how to use oils in the correct way; how to mix them, how to apply them, which tools are the best for handling them. All the possibilities regarding oils applied on armored fighting vehicles with step by step guides. A masterpiece which will be very useful for any modeler.

Follow along with Joaquín García Gázquez as he describes all the necessary techniques to master the kind of tools for applying, mixing, etc. Take your model to the next level and achieve extreme reality with this must-have guide to oil techniques.
